EXPERIENCE

D. E. SHAW & CO. | SDE Intern | May-July 2023 | Hyderabad, India

- Worked with the Equities team to develop features for an in-house **full stack** based **data visualization tool** designed to handle large datasets. This tool is **extensively utilized by quants** to visualize data in forms like charts, graphs, tables and various other plots.
- **Added support to generate interactive mailable reports** for sessions containing the visualizations, these reports depict the state of a session at any given moment.
- **Created a script** that can be executed **to customize these reports** based on certain configs. This script can also be used for periodically generating reports using user-defined cron jobs.
- **Added support for visualizing Excel files** to expand the horizon of the tool to business-oriented end users.
- Streamlined the onboarding of new users by creating a **stepwise guided app walkthrough**.
- Worked on numerous in-house libraries using **React-Redux**, **JavaScript** and **Python**.

PROJECTS

MEMORIES | LIVE DEMO | GITHUB

- Album of memories for users to post about their wildest experiences, most notable places visited.
